🔧 Development Tools: Unity 📊 | Unreal 📊 | Godot 📊 | Maya 📊 | Blender 📊

📊 Beginner 📊 Average 📊 Pro 📊 Master 📊 Contributor

WORK EXPERIENCE

RIT: Peaceland Entrepreneurial Co-op 📅 May 2024 ▶ August 2024
Game Developer/Animator Rochester, NY

- Worked with 18 other team members for 11 weeks to create a game prototype that would promote positive and helpful behaviors in a fictional country recovering from a war that happened 3 decades ago
- Assisted in the greyboxing of the level in Unity, creation of 3D models/assets, implementing of dialogue system and animations, and other small code tasks

RIT: Space Boss Co-op 📅 January 2026 ▶ April 2026
Game Designer/Game Developer Rochester, NY

- Space Boss is a wargame that models military supply chains to help them be more understandable
- Assisted in studying symbology of wargames and US military symbols, playtesting multiple iterations of the game with 6 other team members, and drafting mechanics and ideas for testing and implementation

GAME DEVELOPMENT PROJECT EXPERIENCE

Quoth the Raven (Academic Project) 📅 September 2024 ▶ December 2024

- Collaborated with 4 other team members to make a 2D, top down, roguelite in Godot that draws inspiration from Edgar Allen Poe's 'The Raven'
- While also learning Godot, implemented player movement/interaction, inventory, environmental hazards, powerups, weapon swapping, and cleaned up code

Mill 8: Dynamics Testing Laboratory (Academic Project) 📅 January 2026 ▶ Current

- Collaborated with 3 other team members to make a mod for Half-Life 2 that connected to the main game and featured a custom npc and a tool rewarded to the player to use in the main game
- Studied how Valve's file structure and code were set up, how weapons were created, made a Grapple Hook tool as the mods rewarded tool, and added the Half-Life 2 beta weapon "Immulator" into the mod
